*M/023/0003 Topaz Mine*

Just finished review of the proposed bond release. Your Bond Release Findings satisfies the requirements of the Trust Lands Administration.

Will,

Brush Resources has applied for a bond release for part of the Topaz Mine. More like a rolling bond, money will be applied to new project.

Attached is the bond release package that the Division received along with my findings.

Please review and let me know if SITLA concurs with the bond release.

Wayne
